QA Intern Assignment – Website Testing

Introduction

As part of our QA intern shortlisting process, we would like to evaluate your **basic QA skills**, **attention to detail**, and **clarity in bug reporting**.
This assignment focuses on **manual testing** of a live website and documenting any issues you find.

Assignment Task

Test the following website:

👉 **https://www.nordicbangers.com/**

Please perform **basic manual testing** and identify any **bugs, issues, or usability problems** you notice.

Deliverable

- A **short document or sheet** listing the bugs you found

- Keep it **clear, simple, and well-structured**

Purpose of This Assignment

We are evaluating:

- How clearly you report issues

- Your understanding of basic QA concepts

- Your ability to observe and explain problems
